Lever hoists

Product information

Haklift Lever Hoist is a hoist of high quality, it is durable and easy to operate using the ergonomic rachet lever. Construction is compact and light weight. The standard lifting height is 3 m. Other lifting heights are also available with fast delivery time from stock.

Features:

- Each hoist is dynamic proof load tested 1,5 x WLL before leaving the factory
- Sprocket wheel equipped with needle bearings and drive shaft supported by needle bearing and slide bearing inside to ensure smooth and efficient operation
- Safe, well covered automatic load reaction brake
- Equipped with 2 brake pawls and 4 brake springs (double safety compared to EN 13157 requirement)
- The unique surface treatment gives excellent corrosion protection and low operating volume
- Swivel hooks at both ends makes in line positioning easy
- Hooks are designed to open at overload instead of breaking
- Hooks fitted with heavy duty steel safety latches
- Hook have Deformation Check Dots forged into side for overload detection
- RFID equipped (chip) for easy service and inspection, HF -13,56 Mhz
- Test certificate and Declaration of Conformity enclosed with each hoist
- Spare parts available
