

## Hot dip galvanized liftable storage boxes

### Product information

We introduce our galvanized toolboxes, a robust and durable solution for the safe transportation and storage of tools in various work environments.

These boxes are carefully designed to offer a combination of strength, corrosion protection, and ease of use.

**Strength and Durability:** The boxes are constructed with high-quality materials to ensure strength and durability, withstanding daily wear and the demands of construction site work.

**Corrosion Protection:** The galvanized finish provides effective protection against corrosion, preserving the structural integrity of the box even in more aggressive environments.

**Side Handles and Lifting Brackets:** Side handles allow for easy manual movement, lifting brackets at the base facilitate transport with forklifts, and side hooks enable lifting with four-leg chains and cranes.

**Protection:** The construction of the boxes ensures that tools inside are protected from adverse weather conditions.

**Lockable:** Option to secure with a padlock to ensure the safety of tools during transport and storage. (not included in delivery)

**Material:** Steel

**Marking:** CE-marked

**Finish:** Hot dip galvanized

**Note:** Lifting chain slings ordered separately

Part code	WLL ton	Height m	Length mm	Width mm	Volume liter	Weight kg
