

Foldable crane forks with automatic adjustment and self-levelling forks

Product information

For handling of standard pallets from the long side. Thanks to the spring-loaded lifting eye, the pallet fork is self-balancing, which means that the forks are always horizontal, regardless of whether the pallet fork is empty or loaded. Forks are equipped with articulations so that they always remain in optimal position. The width of the forks can be adjusted with the crank, also when folded for transportation.

Material: Beam and plate of high-strength structural steel

Marking: According to standard, CE-marked

Finish: Painted, yellow

Standard: EN 13155

Note: Min. load at least 20% of the max. load!

Safety factor: 3:1
